

Dear Parents and Guardians:

I hope you and your children had a wonderful summer. I am looking forward to this upcoming 2009-2010 school year. I have missed all my students from last year so much and I can not wait to see you again. I am truly looking forward to meeting the incoming first graders and any new students to our class.

I have been working hard throughout the summer getting things ready for the new year. I have many new and exciting projects planned to add to our universe, plants and animals, reading, writing and math curriculum. There will also be plenty of science experiments, cultural studies and many chances for exploration. I can hardly wait until school starts.

I hope that all my students have been reading every day and practicing their math facts. Especially my new third graders, I have big plans for you this year!

I am thrilled to have your child in my class this year and am looking forward to developing a wonderful relationship with you and your child. I encourage you to contact me if you have any questions or concerns. If you e-mail me, please keep in mind that I am only at the school periodically throughout the summer so it may take a little while to respond.

Looking forward to a great year,

Shannon de Spirlet
